The screenshot shows the Visual Studio Code interface with a Django project named 'TRAVEL_MANAGEMENT_SYSTEM_PROJECT_DJANGO'. The Explorer sidebar on the left displays the project structure, including files like 'login.html', 'logout.html', 'home.html', and various Python files in the 'loginmodule' directory. The main editor window shows the 'login.html' file, which contains HTML code for a login form. The form is styled with Bootstrap classes and includes fields for 'username' and 'password', a 'Log In' button, and a link to the 'Signup' page. The terminal at the bottom shows the Windows PowerShell prompt, indicating the current directory is 'C:\Users\Sanhitha\Downloads\Travel_Management_System_Project_Django'.
